# How to Use Realtime Controls in LiveLitigation

- Log into the LiveLitigation event using your email invitation and link.

- When viewing the transcript, you have several options to customize the view and search.
  - Auto Scroll: Always be live with the court reporter's text.
  - Font Options: Customize your view.

- Style: Chose a font.
- Size: Increase or decrease the text size.
- Bold the text.
- Dark Mode: Change the background from white to black, which is easier on the eyes for some.

- Hide Times: Do not show the timestamps on the transcript.
- Hide Pages: Do not show the page and line numbers on the transcript.
- Keyword Search: Search the transcript for a term.
  - Search allows for all iterations of a word. For example, the term searched for is "stream" and the the results are "Streaming" and "streams"

```
01:10:18 002:03  Realtime Transcript Streaming:
01:10:19 002:04          There is no better way to stay on top of a
01:10:20 002:05  deposition, trial, hearing, arbitration, or mediation
01:10:22 002:06  than watching the live transcript streaming onto your
01:10:23 002:07  computer or mobile device.
01:10:24 002:08          To help facilitate this powerful feature, there are
01:10:25 002:09  currently hundreds of court reporters who already use
01:10:26 002:10  LiveLitigation's local and remote products. Don't fall
01:10:28 002:11  behind during a litigation event because you are unable
01:10:30 002:12  to follow important testimony; work with agencies and
01:10:31 002:13  court reporters who are certified in LiveLitigation's
01:10:33 002:14  products.
01:10:33 002:15          Q: Can I highlight parts of the transcript and make
01:10:34 002:16  notes?
01:10:34 002:17          A: Single lines of text and paragraphs can be
01:10:36 002:18  highlighted to be referenced later. When additional
01:10:37 002:19  information needs to be added to a certain part of the
01:10:38 002:20  testimony, notes can be added to the highlighted lines.
01:10:40 002:21          Q: Can I search the transcript for keywords?
01:10:41 002:22          A: Yes! You can use the built-in Keyword Search to
01:10:43 002:23  find specific words or phrases. When you
01:10:44 002:24  conduct a search, you are given a list of all the places
01:10:45 002:25  that your searched for word or phrase appears.
01:10:46 003:01          Q: Is this compatible with my litigation software.
01:10:47 003:02          A: Yes! Our eSuite product is compatible with all
01:10:48 003:03  litigation software.
01:10:49 003:04  --------------------
01:10:49 003:05  Videoconferencing:
01:10:50 003:06          If a picture is worth a thousand words, what is a
01:10:51 003:07  facial expression worth? With the high quality video
01:10:52 003:08  streams built-in to our eSuite product, you'll be able to
01:10:53 003:09  see each participant and how they react during
